Let the temperatures soar under the heat of the broiling summer sun! It won't make any difference to these youngsters who can flock to the cooling waters of Pomp's pond bathing

beach to escape from the sweltering effects of Old Sol during these hot and humid July days.

### Volunteers Needed For Plane Spotting

Many more airplane spotters are needed here if the local observation post is to be manned on a 24-hour basis as recently ordered by the department of defense. This operation "Skywatch" which went into effect Monday in 27 states on both the Atlantic and Pacific seaboard and the Canadian border fell down in most places through the New England area. Manchester, N.H., the filter center for the northern New England region reported the first day that only 114 of its 312 stations were in operation.

Merchants Committee  
ANDOVER BOARD OF TRADE

The appointment of Edward A. Doherty, 125 N. Main st., as assistant director of recreation has been announced by James D. Doherty, recreation director for the Andover Recreation committee. The new appointee, who a short time ago was elected teacher-coach at Pynchard to succeed Walter C. Roberts, has been assigned to temporary duty at Pomp's pond where in 1935 - 36 he served as life guard. Robert McCabe will continue to serve as head life guard at the pond.

Attendance at the beach has been high for the last several days as the heat continued to drive many of the townspeople to the pond to cool off. Last Saturday the attendance was 1120, Sunday 1108, and Monday the highest total of the week was reached with 1400 swimmers using the facilities there. Swimming classes have been progressing with many beginners now starting to look at home in the water. The senior lifesaving class is made up of George Heseltine, Ann Smith, Joyce Williams, Gladys Thomson, Frank Wright, Tony Sullivan, Bob Henderson and John Killilea.

Several improvements have been made recently by the guards. The new pier has been installed and painted, a new 12-foot tower at the left side of the beach has been erected where the guards can get a better view of the bathers, and a phone system between the guard post and the beach has been installed.

Containers for waste paper have been placed in convenient places and it is hoped the public will do its part toward keeping the beach clean.

## Gunnison Houses Comply With Town's Building Code

### HEAT BRINGS RECORD WATER CONSUMPTION

A new record of 3,745,000 gallons of water was pumped into the town water system Tuesday as the heat and prolonged dry spell brought water consumption to a new high mark. This is the highest ever recorded here. Monday's figure was 3,480,000 gallons. The daily average is about 1,700,000 gallons.

### Busses Operate After Long Strike

Bus service was restored Tuesday morning after a 127-day strike which affected the 74 communities served by the Eastern Massachusetts Street Railway since Mar. 10. Busses which operated in Andover at the resumption of service Tuesday were poorly patronized as many former riders have found other means of transportation during the 18 weeks the busses were idle.

Service was resumed Tuesday on a curtailed schedule but may pick up if the number of riders increases. Operators will be called back to work as needed. Mechanics returned to work Monday to get the busses in readiness for operation. The company estimates that over the system about 471 of the 1846 strikers will lose their jobs due to lack of riding patronage.

The new agreement between the company and the union calls for a 15-cent hourly wage increase retroactive to Jan. 1. It expires next July 1. It provides that men needed to maintain service will be rehired on the basis of seniority in the company.

At present it is expected that the number of former runs will be reduced.

Construction of Gunnison prefabricated houses complies with the town's building laws.

This is the opinion of Prof. Walter C. Voss of M.I.T., to whom the selectmen referred a recent controversial issue after a hearing in which some contractors and architects questioned a decision of Building Inspector Ralph W. Coleman in issuing permits for the erection of 26 of these homes in Shawsheen.

Chairman Roy E. Hardy of the board of selectmen has just received the opinion of Prof. Voss, an outstanding building authority at M.I.T., which he is making public together with the comment that (Continued on Page 12)

### 500 Registered For Blood Typing

Close to 500 persons have signed up for the blood-typing operation which will be held here Monday, Tuesday and Wednesday of next week.

The blood-typing team from the state department of public health will be at the Square and Compass club rooms from 2 to 5, and from 6 to 9 p.m., these three days. Persons who sign up will get an appointment card to tell what time to call during these hours.

The blood-typing is a simple process taking but a few minutes. It is not a blood donation. Only one drop of blood is taken from a finger to be typed. Before the person leaves he receives an identification card with his blood type indicated on it.

The local operation is being conducted by the civil defense agency.

## Playground Youngsters Ready For Big Outing

Upwards of 400 children from the local playgrounds are all primed for their annual outing which will be held at Canobie Lake park Tuesday, July 22.

With a big day of sport before them coupled with the milk, tonic and ice cream which they will be served with their box lunches the youngsters are anxiously awaiting the starting hour for their day of frolic at the popular New Hampshire resort.

According to the plans made by James D. Doherty, supervisor of playgrounds, George F. Snyder, his assistant, and the staff of young men and women who conduct playground activities, busses will leave each individual playground at 10:15 a.m. They will proceed to Shawsheen square and when all are assembled will head for the park.

Here they will have an opportunity to enjoy all the amusements and then take part in such activities as softball, bingo, foot races and field events. The ice cream, milk and tonic will be furnished them as they sit down to eat.

The playground officials expect a large group to attend this annual event. Registrations at all playgrounds have increased this year (Continued on Page 12)

### Temperatures Rise Into High 90's

Temperatures in Andover ranged into the high 90's during the past four days as a torrid mid-July heat wave caused New England to swelter.

Long-range forecasts by the U.S. weather bureau call for above-seasonal normals for another month all over the East and South.

Several readings here since the first of the week have shown temperatures of 96, and 98 in several parts of the town.

Although some communities nearby are fearing a water shortage or a much reduced pressure in their water supply systems due to the excessive consumption there is no indication of either in Andover. Haggett's pond is at a high level and the pumps have been going at a near capacity mark for several hours during the day to keep a good pressure in the system.

Staff Sgt. Robert S. Lawrence

## Awarded Honors For Duty In Korea

Winner of two Presidential Unit citations, Staff Sgt. Robert S. Lawrence, son of Mr. and Mrs. Benjamin Lawrence, 25 Clark rd., has returned to the states after 22 months' duty overseas, 16 of them in Korea.

Sgt. Lawrence, who left Pynchard high school in his junior year to join the airforce, is now with the motor vehicle squadron, Otis Air Force base, Falmouth. Enlisting for the first time in November, 1943, he served during World War II as a flight officer. He was released to inactive duty in November 1945.

In March 1949 he re-enlisted as private first class at Boston and the following February was Okinawa-bound as heavy-equipment

truck driver with the 131st engineering aviation corps.

Following the outbreak in Korea he was sent there with the air force to organize an airstrip and restrain any aggression by the enemy. Before completion of the strip communist forces encircled the field and trapped the engineering group. They took up weapons and for three days and nights held off the enemy until rescued by the 2nd Infantry division. For their outstanding heroism the group was awarded the Presidential Unit citation.

The sergeant and his group were later sent to Pusan, Korea, where with two other engineering aviation battalions they built an airstrip. For arduous effort and heavy labor

he was awarded the second Presidential Unit citation for his assistance in helping lay 5000 feet of heavy steel landing mats in 6½ days. Sgt. Lawrence made his last two ratings under fire in Korea.

**Low Sparking**

Due to the possibility of accidental explosions, sparking dangers must be cut to a minimum when military aircraft are being fueled. One manufacturer is now making nozzles for gasoline hoses out of Monel, an alloy of nickel and copper, because of this material's low sparking characteristics.

#### Low Sparking

Due to the possibility of accidental explosions, sparking dangers must be cut to a minimum when military aircraft are being fueled. One manufacturer is now making nozzles for gasoline hoses out of Monel, an alloy of nickel and copper, because of this material's low sparking characteristics.

The telephone is one of the most direct lines of defense... whether it's linking a radar location to a warning center, building a ship or carrying a soldier's message home.

Radar, observation posts, aircraft control and warning networks, airfields, local civil defense centers and anti-aircraft units are being served by telephone. 9,000 miles of telephone and telegraph typewriter circuits and hundreds of miles of private military lines are being installed for New England defense communications.

#### IMPORTANT DEFENSE WORK IS BEING RUSHED

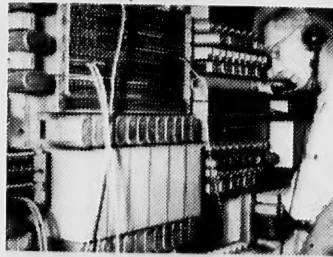

Steps are underway to rearrange switchboards, cables and other equipment used in handling long distance messages — so calls can be routed around major cities if necessary.

Provision for standby power units and for the use of automobile and other types of portable radio-telephone equipment at strategic locations, detailed emergency arrangements for restoring lines to service — all these plans are nearing completion. Safety measures have been taken to guard important equipment in key locations.

#### MORE AND MORE FOR THE ARMED SERVICES

More lines and switchboards to New England's camps and bases. Telephone Centers and other special provisions for servicemen have been set up at military hospitals, Army, Navy and Air Force installations.

Yes, the telephone plays a big part in defense and in morale, too!

Circuits, Circuits and More Circuits are being installed, tested and put into operation all over New England to meet the needs of our Armed Forces and Civil Defense networks. Expert engineers check every wire to make sure the new circuits work perfectly.

Complex Air Base Control such as this typical Massachusetts Army Air Force base, demand special telephone equipment. Controlling flights, relaying Civil Defense alerts, air-ground communications — these are some of the important jobs the telephone handles in an air base control tower.

## Vacation Visitors

With the vacation period now in full swing our historic town will be visited by a great number of summer tourists drawn to this area annually by New England's great number of varied attractions for relaxation and recreation.

A promising July business is in store for the region's resort proprietors. A sampling of vacation lodging places in the six states by the Federal Reserve bank of Boston indicates increases for hotels, guest houses and cabins over the corresponding period of a year ago. Summer camps for boys and girls opened their present season with perhaps the largest number of campers in many a year.

Offering about 2500 miles of ocean front with many sandy beaches and sprawling sand dunes, New England also has its neat villages, trim countryside, hills, mountains and innumerable lakes and ponds which make its charm for the vacationist so widely known.

Vacation visitors spend a billion dollars annually in the six states, benefitting the whole area. Andover will get a share of this business as the town with its noted schools and places of wide historic interest continues to draw out-of-state visitors here during the summer season.

Realizing that what helps New England helps us all, it is important that we take good care of such visitors. Andover has that kind of a reputation and every citizen, gas station attendant, sales person, and police officer can be expected to show them every courtesy and consideration so that when they depart they will be singing out praises and, we hope, will want to come back again.

## Down the Years with The Townsman

### 50 Years Ago — July 1902

Chief Frye warns all owners of dogs whose tax remains unpaid that if tax is not paid in five days he will take action against them.

Local members of the Lawrence Canoe club were among party of 14 who paddled down the Merrimack to Newburyport last Saturday afternoon. They spent the night at Salisbury beach and rendered great assistance during fire which destroyed 26 cottages and other buildings Sunday morning at a loss of \$40,000.

A public telephone has been installed in Charles A. Hardy's store in West Parish.

Big fire in Vale threatens several buildings before being brought under control. Considerable delay was caused the fire department because the horses were at work in the center of the town. Citizens of Vale aroused. Want board of engineers to see that horses are not worked at such a long distance from the engine house.

For another summer Main street is doomed to be in a chaotic state with westerly side torn up for culverts to provide drainage of surface water which every year raises havoc with the street's surface.

Popularity of auto and trolley sees use of the bicycle declining. It is hoped that with the passing of the wheel the shirt waist and short separate skirt will not become past tense and bring a return of the old-time style of dress which made physical exercise almost impossible. Already the short skirt seems to be getting rarer, we lament.

### 25 Years Ago — July 1927

Plans for new railroad bridge over Haverhill street approved. Abutments will be 40 feet apart allowing two 8-foot sidewalks and a 24-foot roadway.

Cornelius A. Wood leaps fully clad into swift waters of Cantapitsit channel at Cuttyhunk Island and rescues wife after she had fallen overboard from boat which had a disabled motor.

Tyer Rubber Co. puts on night shift, and mill room is also working overtime due to recent orders. Cong. Edith Nourse Rogers had busy afternoon at town house Tuesday meeting constituents. Had no news regarding location of new postoffice here.

Stoneham boy drowns in Foster's pond after boat capsizes.

Sunday schools of Shawsheen Community and West churches hold joint outing at Wenham with over 100 members in attendance.

### 10 Years Ago — July 1942

Blackout here last Thursday night considered great success by officials in charge.

2497 autoists register in new gasoline rationing program.

Playgrounds open with various activities for children. Miss Margaret Davis is supervisor of staff.

### NEW BOOKS

How To Keep Our Liberty, Moley.  
From his forty years as a writer, teacher, observer and participant, Raymond Moley's knowledge of practical and theoretical politics gives authority to this book that tells the average citizen what he can do about current trends toward Socialism.

American Labor Unions, Peterson.  
A basic, easily understood survey of labor unions in the United States; unbiased and comprehensive description of the organization and the history of labor in this country. The Author, Florence Peterson, is former chief of the industrial relations division of the federal bureau of labor statistics.

The Extraordinary Mr. Morris, Swiggett.

One of the youngest members of the Continental Congress, later one of the financial managers of the Revolutionary War and contributor to the making of the Constitution, Gouverneur Morris was highly interesting as a personal figure as well.

The Fly And The Fish, Atherton.

Includes the technique of fly-typing from point of view of artist and fisherman. Tells about wet and dry fly fishing, cold weather fishing, use of bucktails, etc.  
So We Believe, So We Pray, But-trick.

A brilliant study of our fundamental Christian beliefs in our basic relation to God and each other. Detailed examination of The Lord's Prayer.

Era Of Good Feelings, Dangerfield.

This is the name given to the eight years of the presidency of James Monroe — a period of soaring nationalism. It marked the years from the time when feeling was that government is best when it governs least to the time when it must intervene in behalf of the weak.

Main Fleet To Singapore, Grenfell.  
The "why" of Britain's loss of Singapore to the Japanese in World War II, told by Captain Russell Grenfell, R.N.

Doctors Jacobi, Truax.

Mary Putnam, daughter of publisher George Palmer Putnam, was the first woman admitted to Paris Ecole of Medicine. She married Abraham Jacobi, father of American pediatrics. Together they made medical history.

Junior Leaguers  
"Night" July 23

The Andover Service club, sponsor of the Andover team in the Junior League, is planning to have a "night" for the team here Wednesday, July 23.

Meeting last week with the new president, Will G. Brown Jr., in the chair and with President T. J. Scanlon of the Junior league, the Service club delegation planned the forthcoming event as an opportunity for the members to attend the game and give the team and its coaches their support.

No particular program is planned other than the large outpouring of members to look over the team and see how well the boys perform on the diamond.

The Andover nine has some new assistants to help Coach Charles Bowman during the latter half of the season. Bill Ronan, Punchard pitcher, Dick Sweeney and William Dalton, former ball players are now carrying on in place of Walter Roberts, Jim Platt and Henry Porter.

## JUNIOR LEAGUE

Despite a two-run lead in the first inning the Andover team in the Junior League could not hold the Tower Hill nine in a game at Lawrence July 9 and dropped a 6-3 decision which kept them at the bottom of the league. Huot, the Tower Hill catcher, hit a homer and a triple in three times at bat.

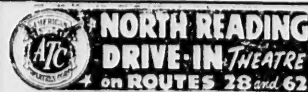

The South Lawrence West team jumped off to a good lead in the first inning of Tuesday night's game with the Andover team at the playstead and remained out in front until they captured a 5-1 decision over the local boys. McColley, the visitors pitcher, limited Andover batters to only four hits in the seven innings.

## Little League

The Cardinals were on the short end of an 8-0 score in their game here with the Braves the night of July 9. The local boys got only three hits in the six inning contest and their five errors helped the visitors to run up an impressive score.

It took eight innings for the White Sox to eke out a 5-4 win over the Andover Cardinals at Methuen Sunday. At the end of the regular six innings the score was 4-4. Neither side could produce a run in the seventh but in the eighth the host team put together a double and two singles to score the winning run. Rizkallah, who hit the double, also hit a homer in the fifth. Johnny Giovinco, local first sacker, homered for the Andover boys driving in Glenn Williams, who had doubled.

## OBITUARIES

MRS. TIMOTHY J. MAHONEY  
Mrs. Margaret E. (Healey) Mahoney, wife of Timothy J. Mahoney, 34 Florence st., died Monday at the Lawrence General hospital after a short illness.

A native of North Andover she had resided here for 39 years. She was a member of Court St. Monica, C.D.A., and a member of the Altar and Rosary society of St. Augustine's church. Surviving, besides her husband are two sons, Joseph of Calumet City, Ill., and Vincent A. of Lawrence, two nephews and a niece.

The funeral was held this morning from the M. A. Burke Memorial funeral home with a solemn high Mass of requiem at 9:30 o'clock in St. Augustine's church. Burial was in St. Augustine's cemetery.

MRS. WILLIAM F. SIMEONE  
Mrs. Dorothy Claire (Martin) Simeone, wife of William F. Simeone, 19 Stratford rd., and a resident of Andover for more than 20 years, died Saturday at the Massachusetts Memorial hospital after a short illness.

She was born in Lawrence, was a graduate of St. Mary's high school and before her marriage was employed at the Lawrence Gas and Electric Co.

Besides her husband, she leaves three daughters, Elizabeth Louise, Jane Ann and Judith Marie, two sons, William F., Jr., and Paul Michael; three brothers, Robert F., and Daniel M. Martin, of Lawrence, and Charles P. Martin of Worcester; four sisters, Mrs. Gertrude A. O'Neill, Mrs. Mary E. Kelley, Mrs. Isabel C. Chevalier and Miss Rita

M. Martin, all of Lawrence, also several nieces and nephews.

The funeral was held Wednesday from the Lundgren funeral home with a high Mass of requiem at 10 o'clock in St. Augustine's church. Burial was in Spring Grove cemetery.

### ROBERT C. PARADISE

Robert Campbell Paradise, brother of Scott Paradise of Hilden Field, died July 14, after a long illness, at his home in Rocky Hill, Conn.

The funeral was held today at the Lawrence funeral home, Newton, Conn.

## Wedding...

### KILFOYLE - KNEELAND

White asters and gladioli adorned the altar of the South Congregational church for the 4:30 o'clock ceremony July 12 in which Shirley Ann Kneeland, daughter of Mr. and Mrs. Guy P. Kneeland, 121 Elm st., became the bride of James Richard Kilfoyle, son of Mr. and Mrs. Frank Kilfoyle of Glens Falls, N.Y. The Rev. Levering Reynolds Jr., pastor of the Free church, officiated.

The bride, who was given in marriage by her father, wore a gown she designed and made in college. It was of bluishpink satin with fitted bodice and Peter Pan collar embroidered with seed pearls and with buttoned front. She carried a bouquet of pink and white roses, stephanotis and baby's breath with an orchid center.

Mrs. June K. Barricau of Ware, sister of the bride, was matron of honor. The bridesmaids were Jean Gillespie of Portsmouth, N.H., cousin of the bride, Jean Peterson of Scarborough, Me., and Dolores Dumas of Limerick, Me., classmates of the bride; and Jean Munior of Southboro, a classmate of the bride, was in charge of the guestbook.

Avis Kneeland and Brenda Gillespie of Portsmouth, N.H., cousins of the bride were flower girls. Ernest L. Foss of Wakefield was best man. The ushers were Joseph M. L. Barricau Jr., of Ware, Randall Wilkinson of Springfield, Me., and Donald Light.

Miss Priscilla Comfort of Kingston, N.H., classmate of the bride was soloist.

A reception at the Andover Country club followed the ceremony after which the couple left on wedding trip to Rye Beach, N.H., and through New York state.

The bride went to Pynchard school, Kent's Hill prep, and graduated from Nason college, May with an A.A. degree. She was active in many college clubs.

The bridegroom is in the army and will leave after July for Germany where the bride expects to join him later.

department operation, not civil defense, although locally it has been placed under David L. Nicoll, the civil defense director.

The local post did not open Monday but is expected to be manned on a limited scale beginning Saturday. About 25 volunteers have been signed up for this work. Director Nicoll says that a minimum of 112 and a maximum of 168 are needed to keep the post open as required with one person serving only three hours a week.

It is hoped that, as in the last war, many women will volunteer for daytime duty at the post leaving the men to take the night hours. Several fraternal and civic organizations have been contacted and some are expected to provide volunteers for a full day's operation of the post.

## Manor Granted Dance License

The Shawsheen Manor, Inc., was granted a license by the selectmen at last Monday night's meeting to have dancing at its establishment on Main street Friday nights with the provision that it be stopped at 11:45 p.m.

The vote was taken after Thomas Crowley, manager of the manor, appeared before the board in support of the application.

The Lawrence Gas & Electric Co., was granted one pole location on the east side of Holt road northerly from Orchard street.

Joint locations for the utility companies were granted as follows: three existing poles on the north side of Lowell street westerly from Greenwood road; one relocation of a pole on Highland road easterly to Heather drive; one pole on the southwest corner of Main street and Ballardvale road; and one on the north side of Lowell street easterly from Bellevue road.

### GRASS FIRE

A grass fire was extinguished Tuesday afternoon by firemen from the central station in answer to a still alarm at 3:18 p.m. Grass beside the road at 107 Salem st., had been ignited possibly by the careless disposal of a cigarette.

## GUNNISON HOUSES COMPLY WITH CODE

(Continued from Page One)

only through action at a town meeting can the matter be changed.

The statement issued by Chairman Hardy was as follows:

Monday, June 23, 1952, a general discussion of prefabricated houses took place at a hearing before the board of selectmen. Permits had been issued by the building inspector allowing the erection of the so called Gunnison houses in a portion of Shawsheen Village. Many varied opinions were offered concerning this question. The selectmen took the question under advisement, and at a later meeting of the board agreed to submit the question to Professor Walter C. Voss, head of the department of building and construction at the Massachusetts Institute of Technology. No indication of the opinion of the board of selectmen was given to Professor Voss, and I believe he approached the question from a purely objective standpoint.

His answer follows: — "In answer to your message of June 30, I see no reason why the building inspector could not issue a building permit for a Gunnison prefabricated house as authorized in Paragraph 3, Section 7 of your building laws.

Personally, the Gunnison house is in my opinion of excellent quality and could be erected without any detriment to the community."

We are certain that this answer of Professor Voss' will not be satisfactory to many of the people who attended the hearing. We believe, however, that the matter can be changed only by a correction of the building laws at a regularly called town meeting.

## May Lose Social Security Payment

Some people in the Lawrence area will lose their rights to social security lump-sum death payments if they delay making a claim until after the end of this August.

Miss Vose, manager of the Lawrence social security office, directs this statement to survivors of insured persons who died outside the United States after Dec. 6, 1941, and before Aug. 10, 1946. Most of these were men who died in active service during World War II.

"In most cases, those who stand to lose the lump-sum payments are widows or other persons who paid the burial expenses for reinterment in the United States and who have not claimed social security benefits on the deceased person's account," Miss Vose says.

She advises all such people to get in touch with the Lawrence social security office at 202 Broad-
